
Project "SPUREN"

Made by Simon Bozhilov

Frankfurt

Frankfurt upon Main (in German: Frankfurt am Main) is the biggest city in the province Hesen, Germany, with population 679 664 people (2010 year) – the 5th biggest city in Germany after Berlin, Hamburg, Munich and Kyoln.

Frankfurt

Many of the highest buildings of continental Europe are in Frankfurt. Because of the fact, the city is called "Manhattan" – in analogy with Manhattan, which is famous for its buildings. In August 2009 there are 21 buildings with over 100 meters height. Most of them are office buildings and bank centrals. The highest building is the central of "Commerzbank" – "Commerzbank tower".

Paderborn

We, the pupils of 84 school "Vasil Levski" – Vasilena, Emma, Erica and Simon, together with Mrs. Zasheva and Mrs. Sokolova, have visited Paderborn.

We were there in order to present Bulgaria in the language of English in project SPUREN.

The travelling was very good, we were so impressed from Paderborn's beautiful view.

2nd day in Paderborn

First we visited the town hall after breakfast.
Than we went to the golf yard where we played golf with the Irish pupils after lunch. It was marvelous.
After that we went to the Palace "Neuhaus" where we listened to classical music and it was wonderful.
In the evening was our presentation with Bulgarian folklore costumes. Everybody was amazed.
After that the Italians presented the play "Pinocchio".
At the end of the evening there was a musical entertainment.

3rd day in Paderborn

We went to the "Computer's museum" after breakfast, where we saw one of the first machines in the world. It was very interesting and fascinating.

In the evening we were on an official dinner in a big hotel and we talked with the Irish.
